ANOTHER WONDERFUL CURE!

PHILADELPHIA, April 9, 1846. PRILABELPHIA, April 9, 1846.
Last August a year, I caught a violent cold, in consequence of getting wet in a shower of rain. A circumstance so common gave me no immediate concern, supposing that I should soon get rid of it. On the contrary, however, I daily grew worse; a violent cough set in, then pain in my breast and between my shoulders. I now suffered great opposition from the great secretion of purpose man pression from the great secretion of puruient matter in my lungs. I became greatly alarmed; and my friends considered my situation extremely critical, the more so as loss of appetite, hectic fever, and night sweats rendered me as weak as a child, and at night the sweat literally poured off me! This was my condition when I commenced using "Thomson's Compound Syrup of Tar and Wood Naphtha." I procured one bottle, and experienced so much benefit that I resolved to continue it. It is now six months since I ceased using the medicine, and the cure remains perfect. I firmly believe this medicine is far superior to every other remedy for Consumption of the Lungs.

COLLETON BITTERS.

THESE Bitters are purely a vegetable compound, and are offered to the public from principle of benevolence, under the fullest conviction that they will be found a safe and sovereign cemedy for Dyspepsia. They have been triumbhantly tested, not only by some of the most repectable families and physicians in the State of South Carolina, who have furnished ample testingnay as to their decided excellence, but also by the nony as to their decided excellence, but also by the proprietor, who, for ten years, suffered all the gloom nacident to that stubborn and distressing discase.

They possess the peculiar excellence, denied to er Bitters, of not proving injurious by continued use. They contain not a single deleterious ingredient, and, as seen from the directions which accompany each bottle, may be given with entire safety to an infant in the month

With pleasure, and for the benefit of mankind, I

In the year 1838, when the cholera was in Charleston, S. C., I was compelled to send a servant as to cause apprehension that he would expire in a short time, if medical aid could not be procured. I immediately resorted to the Colleton Bitters, by giv-ing a wine glass full at a dose. In the course of a very short time it acted as an emetic, and throwing him at the same time into a profuse perspiration. I es, from two to then continued to give it in small do then continued to give it in small doses, from two to three tea spoonsfull, which resulted in a happy recovery. Since then I have been using it constantly in my family, in cases of cholera morbus, cholera infantum, diarrhesa and general debility, and in every instance found it highly beneficial. Some constitutions, however, require much larger doses than others.

JOS. D. JENKINS. Bluffton, S. G., 1846.

It is with feelings of gratitude as well as pleasur that I take this method of giving my testimony of the great estimation which I entertain for your invaluable compound. In justice not only to the me-dicine, but for the benefit of others who may be suf-fering from the same malady, Dyspepsia, with which I was for years afflicted, I feel it a duty incumbent on affe to state that I am now restored to perfect health. When I commenced taking the Colleton ity from indigestion was so great that a cure was looked upon as almost hopeless. After taking it regularly and perseveringly for some time, my strength and di-gestive powers were entirely restored. I have never taken a single dose of any other medicine for more than five years past. I can now eat the richest food without any unpleasant feelings whatever. I have also used Colleton Bitters freely in my family for cholera cafontum, cholera morbus, general debility and as a tonic after fever, with great success. As a family medicine I deem it invaluable, and do con-
